APPLICATIONS Interior/Exterior Upholstery

Upholstery protected with **PreFixx** protective finish is engineered to be cleaned again and again without showing signs of wear. With easy cleanability, and proven stain resistance, even the toughest stains can be wiped away without harming the upholstery when the recommended cleaning process is followed.

Though our upholstery can be used in many applications, customers are responsible for selecting an upholstery with attributes that meet the requirements of the specific end-use application – not all upholstery is suitable for all applications.

Nautolex® products are easily cleaned. For specific cleaning instructions, see downloads at www.omnova.com/nautolex
